

Windows + doors

KÖMMERLING®

*Windows form part of your living space
and your own personal living environment.
You should therefore give your full attention
to your decision for the right window*

Beautiful New *Window World*

Windows – they bring light into your home; guard you against noise, wind, and weather; and give you the feeling of warm security. And more: Windows and doors give character to your home. After all, they make up a third of the facade. They mould the look of your house and are a mirror to your personal style. Our modern PVC-U windows are high tech products. More reliable and comfortable than ever before, they are true champions in thermal and sound insulation and protection against forced entry.

Come on into our “Beautiful New Window World”.

*Window profiles from
the No. 1 in Europe*

Our windows are made with PVC-U profiles from KÖMMERLING. Because PVC-U presents many invaluable advantages. It makes possible the ideal combination of economy and design freedom with the high requirements for thermal and sound insulation. With respect to technology, quality, function, and aesthetics, KÖMMERLING is always a step ahead of the trend. Put your trust in a strong brand.

Feel-good warmth.

And peace.

Warmth, whether as a physical or emotional feeling, is needed for a healthy life.

And no less important is peaceful relaxation after the increasingly hectic pace of everyday business.

Then you want to withdraw to a protected space where you can feel the warmth, enjoy the peace and quiet, sense the security – far from noise and cold.

Today this is possible, even next to airports or where traffic thunders past your home.

Our windows are the product of ultra modern technology – with extremely insulating profiles and innovative sound insulating panes they function as your personal barrier.

Outside there may be blizzards or storms – inside you find warmth, peace, and cosiness.

► **And economical.**

You want to upgrade your home and at the same time save costs? Of course you do. When windows keep tight, you save hard cash. And when your PVC-U windows consist of KÖMMERLING profiles, they'll still be beautiful after thirty long years. But the best thing is: You don't need to paint them in all that time. And here too you again save a lot of effort and money. You can rely on that.

- ▶ **Windows and doors are the calling cards of your home. They say a lot about your personal taste.**

Windows and doors mould the overall impression made by a house. They give it its own character – just as you wish it. We have these windows. And the doors, as decorative (and burglar proof) residential doors, terrace doors, balcony doors, sliding doors – just as you dream in fulfilling your wishes for safety, security, and your own style in your own four walls. For an allround satisfied feeling of life.

- ▶ **Rex is good.
New security
technology is better.**

Never before has the need for security been greater than today. And never before have responsible minded designers invested more intelligent technology in the development of perfect windows and doors. With special security hardware, burglar resistant glazing, and lockable handles you can enjoy the highest possible quality of living and life. And it gives you the feeling of having done the best for your family and your home.

Lead free.

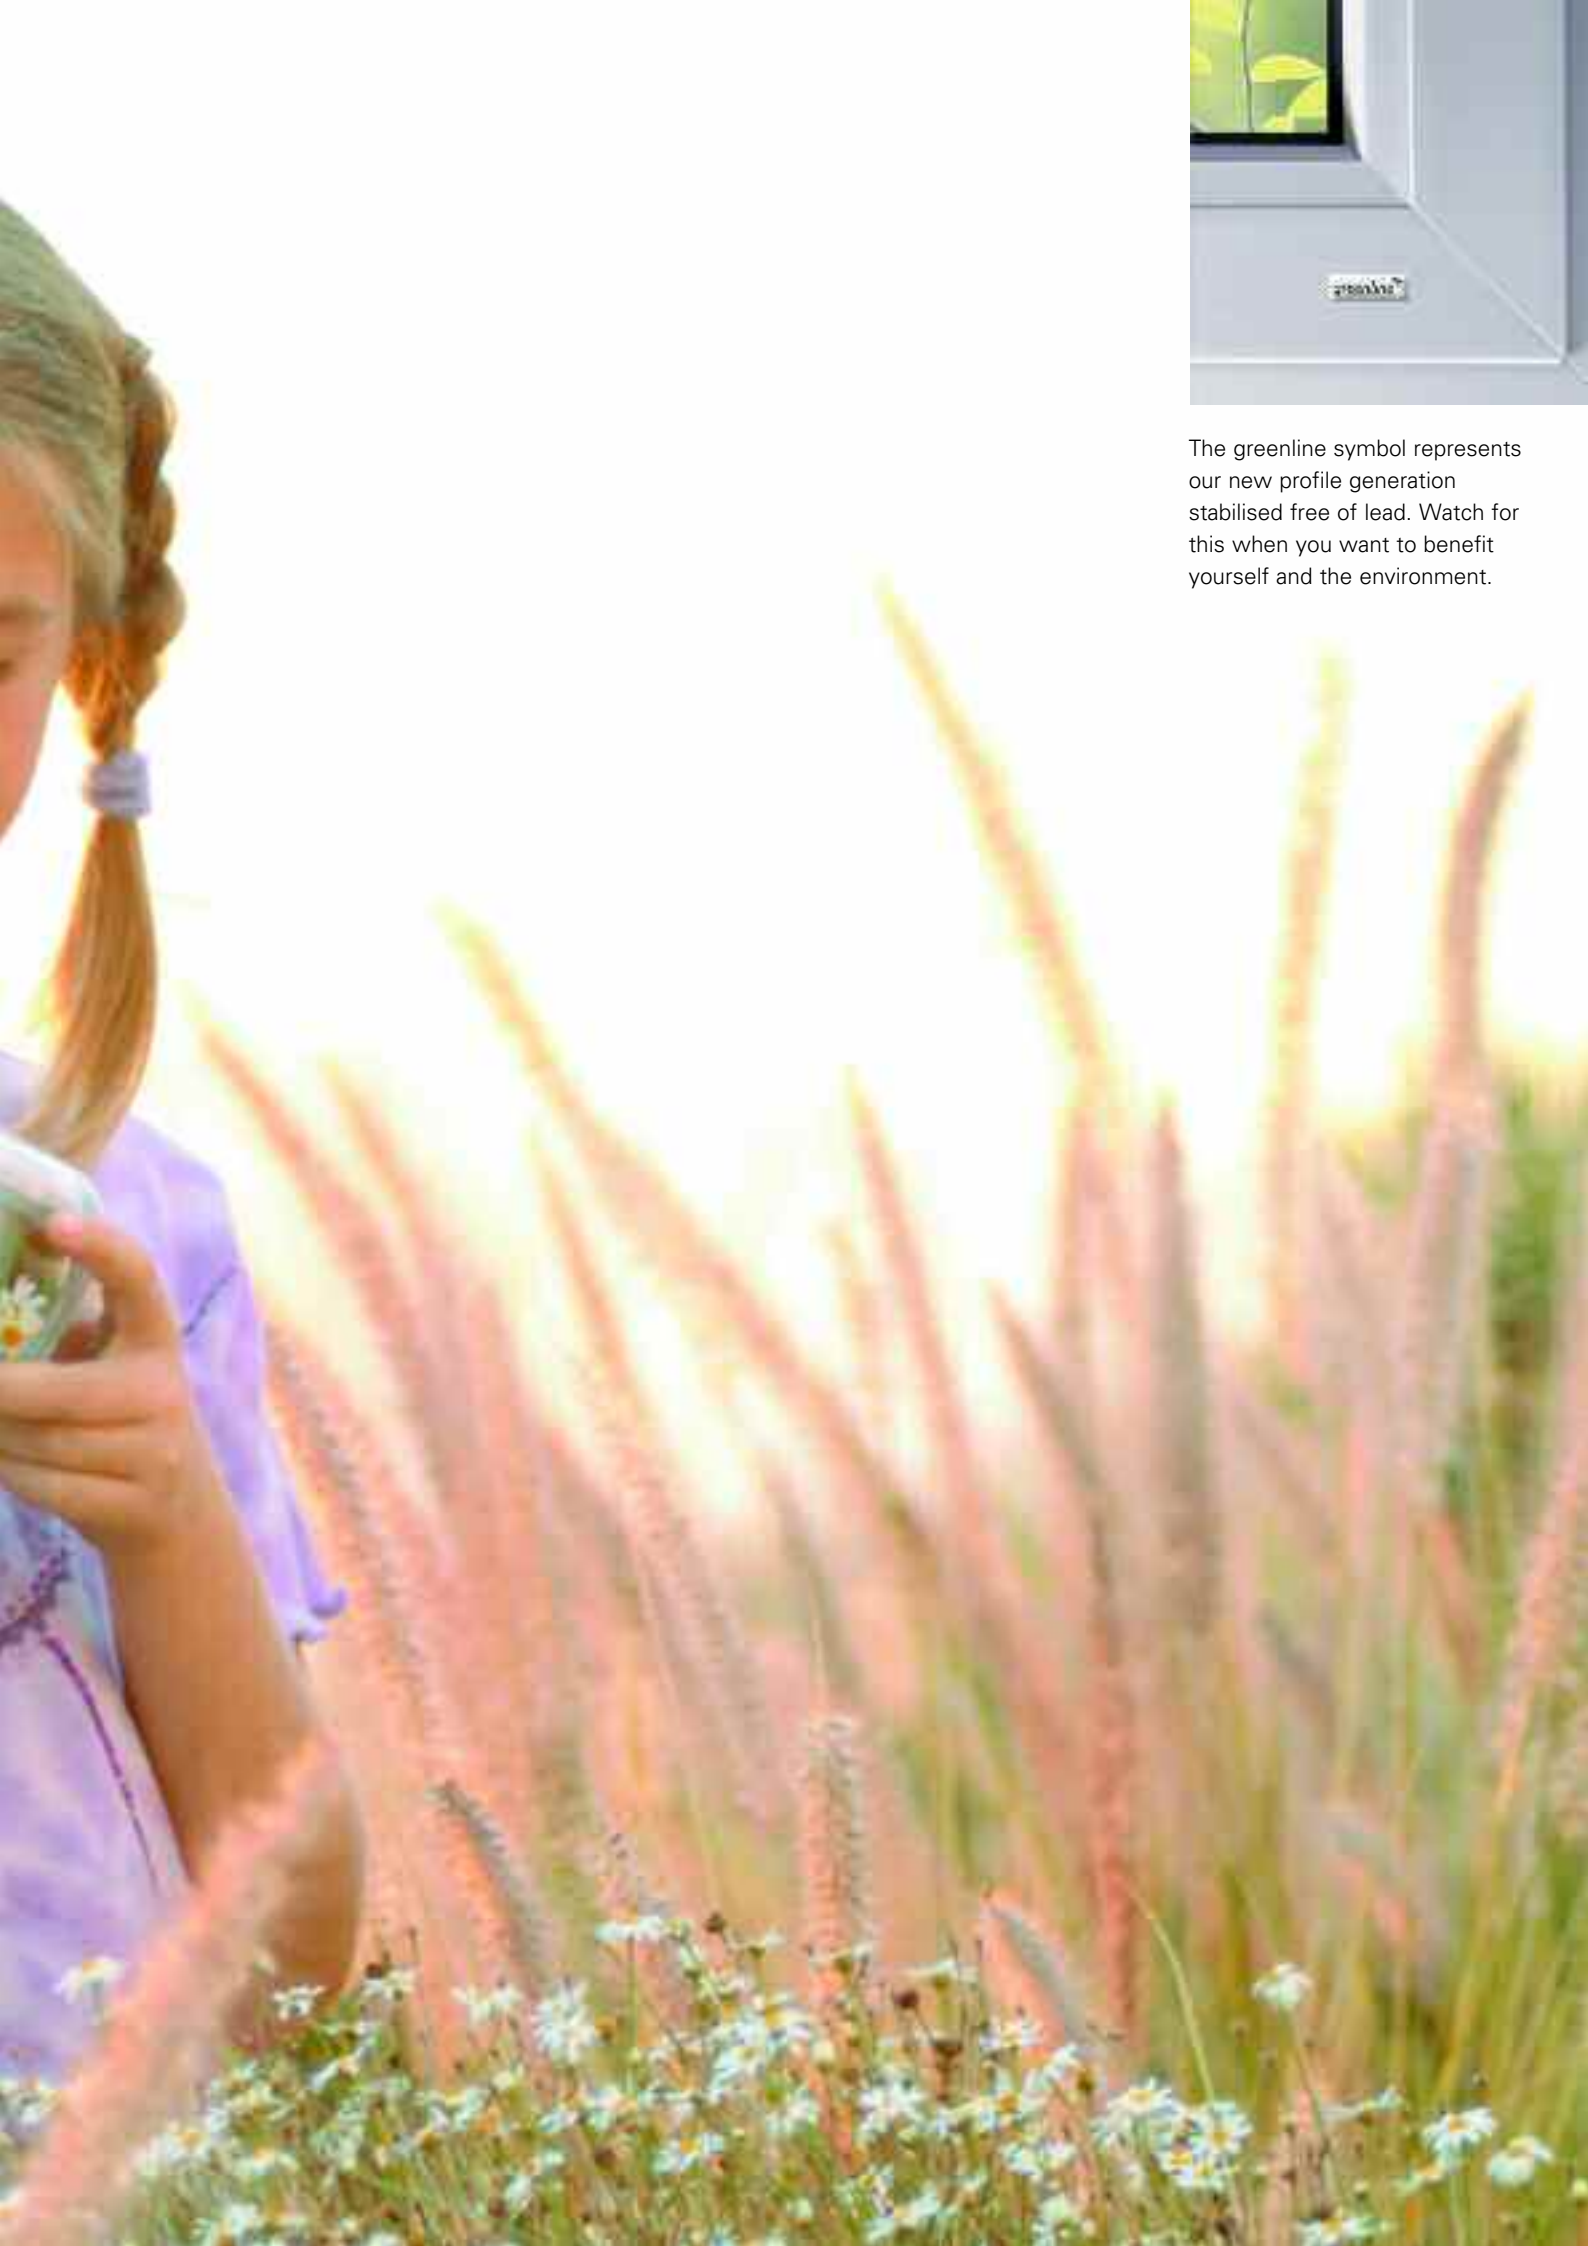

greenline is a lead free stabiliser in the recipe for our high quality window PVC-U. Based on eco friendly cadmium and zinc, greenline optimises the weather resistance, enhances service life, and preserves the surface gloss over the years. By opting for this modern generation of PVC-U windows you will be choosing in favour of greater sustainability.

greenline protects the environment, makes for cost efficiency, and preserves value.

greenline comes as standard and without extra charge on all KÖMMERLING window profiles.

greenline
BLÖNNEFELD STABILISIERUNG

The greenline symbol represents our new profile generation stabilised free of lead. Watch for this when you want to benefit yourself and the environment.

Options

and *ancill*

► The whole lightness
of summer.

You want to enjoy the beauty and brightness of summer free from worry – and peace and cosiness in the winter? You want to see your wishes fulfilled for cosiness and pleasure in life, play with light and shadow, and make the window the most beautiful place in the house? We have your answer. As rich and varied people's wishes are for their own ideas of living, just as rich and varied is our range of windows for fulfilling these wishes. In all seasons – both inside and out.

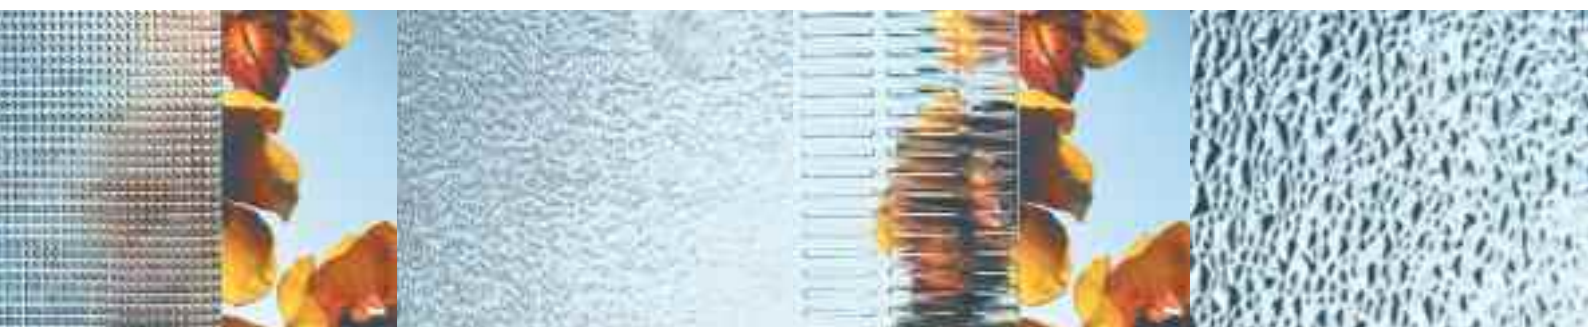

► **The suitable window:
And more.**

We supply you with everything you need for your unmistakable individuality: wide range of colours; transoms/mullions (clip-on or internal); stylish handles; special glazing, e.g. for the bathroom; roller shutters, fly screens, sunshades, and ventilation systems – our perfected connection facilities leave (virtually) no wish unfulfilled.
